To Our Shareholders

I would like to express my gratitude to all of our shareholders for your continuing patronage.

During the fiscal year under review, both business conditions and corporate earnings continued their gradual recovery, and the Japanese economy was generally firm as consumer prices started to rise, etc. As for global conditions, geopolitical risk increased and there were major changes since the beginning of the year. Furthermore, the monetary and trade policies of the U.S. have grown uncertain. In the domestic real estate markets, the housing sales and leasing businesses were firm, but there were changes in the environment for real estate, including rising land prices and construction costs and client preferences. On the other hand, there is growing demand overseas for offices, homes, and various other types of real estate in Asian countries experiencing strong growth.

Amid this environment, the Nomura Real Estate Group (the “Group”) posted performance as follows for the fiscal year ended March 31, 2018: Operating revenue of ¥623.7 billion (a 9.5% increase year on year), operating profit of ¥76.6 billion (a 0.8% decrease), ordinary profit of ¥68.0 billion (a 1.3% decrease), and profit attributable to owners of parent of ¥46.0 billion (a 2.1% decrease).

As for the distribution of profits, taking into account the operating environment, investment plans, and retained earnings, the Company increased the dividend by ¥5.0 per share to a record-high annual dividend of ¥70.0 per share. As for the fiscal year ending March 31, 2019, the Company plans to further increase the dividend by ¥5.0 to an annual dividend of ¥75.0 per share, marking the seventh successive fiscal year of dividend increases.

Taking into comprehensive consideration the operating environment, share price, and financial position, the Company purchased ¥10.0 billion worth of treasury shares. For the fiscal year ending March 31, 2019, the Company plans on acquiring up to an additional ¥5.0 billion in treasury shares.

On December 25, 2017, a Group company Nomura Real Estate Development Co., Ltd. received a recommendation for corrective action and direction in respect to the discretionary working system for management-related work applied to certain employees from the Labor Standard Inspection Office in charge of the headquarters and four local offices. Nomura Real Estate Development Co., Ltd. abandoned its discretionary working system effective March 31, 2018 and has completed adjustments regarding unpaid salary following scrutiny of the working hours of the affected employees.

As management, we firmly swear to take the necessary steps so that this does not occur again. In addition, we are committed ensuring labor management and improving the workplace environment to enable employees to work in a positive manner with peace of mind with the aim of restoring the trust of shareholders and society and the confidence of employees in the company and its management.

We will properly manage the Group’s businesses across the Group in order to implement “wellness management,” which links valuing the physical and psychological health of employees and energetically undertaking work to sustained corporate growth.

With “New Value, Real Value” as our Group Vision, we are firmly aware that we are an adaptive company with an eye on changes in society and the future and will continue tackling transformation and challenges as we work to achieve lives of abundance for people through building cities that connect today with tomorrow’s possibilities.

I ask all of our shareholders for your continued support for the Company.

Proposal No. 2: Determination of Amount of Compensation, etc. for Directors (Excluding Director & Audit & Supervisory Committee Members) and Decision on Amounts and Details of Performance-based Stock Incentive Plan

1. Determination of amount of compensation, etc. for Directors (excluding Director & Audit & Supervisory Committee Members)

The maximum amount of annual compensation for Directors (excluding Director & Audit & Supervisory Committee Members) of the Company was set at ¥650 million (excluding the portion of employee salaries for directors who are concurrently employees) at the 11th Ordinary General Meeting of Shareholders held on June 26, 2015, and the compensation consists of “fixed compensation,” “bonus” and “stock options” within that maximum amount. (The Company intends to grant stock options within that maximum amount as compensation for Directors for the 14th business year.)

Considering the abolishment of stock options in connection with the introduction of the performance-based stock incentive plan described in 2. below and the economic conditions and other various factors, the Company proposes that the maximum amount of annual compensation, etc. (“fixed compensation” and “bonus”) for Directors (excluding Director & Audit & Supervisory Committee Members) will be set at ¥550 million (excluding the portion of employee salaries for directors who are concurrently employees), which will be paid in addition to the performance-based stock incentive plan described in 2. below.

As described above, the Company will abolish the current stock options system after granting stock options as compensation for Directors for the 14th business year and will not grant any new stock options thereafter. However, any share acquisition rights which have been already granted as stock options but not yet exercised will continue to exist.

The current number of Directors (excluding Director & Audit & Supervisory Committee Members) is eight (8) (of which two (2) are External Directors), and if Proposal No. 1 (“Election of Eight (8) Directors (Excluding Director & Audit & Supervisory Committee Members)”) is approved in its original form, the number of Directors (excluding Director & Audit & Supervisory Committee Members) at the conclusion of this General Meeting of Shareholders will remain the same at eight (8) (of which two (2) are External Directors).

2. Decision on Amounts and Details of Performance-based Stock Incentive Plan

(1) Reason for the Proposal and Rationale for such Compensation

As described in 1. above, the compensation for Directors (excluding Director & Audit & Supervisory Committee Members) of the Company currently consists of “fixed compensation,” “bonus” and “stock options.” The Company requests the shareholders to approve the introduction of new stock incentive plan (the “Plan”) for Directors (excluding Director & Audit & Supervisory Committee Members, External Directors and non-residents of Japan; the same applies hereinafter) of the Company to take the place of stock options in the compensation structure. In addition, the Company asks the shareholders to permit the Board of Directors to decide the details of the Plan within the scope described in (2) below at its sole discretion.

By linking Directors’ compensation to the Company’s share price, the Plan is expected to have an effect similar to “stock options” in that it will create an incentive to enhance corporate value of the Company in the medium to long term and align interests with the Company’s shareholders.

At the same time, the achievement-linked portion of the Plan links the level of stock-based compensation to performance three years later, thereby being more suited to the medium- to long-term business periods that are characteristic of the real estate business and providing a clearer incentive to improve medium-term performance. In addition, the non-achievement-linked portion of the Plan creates incentives to contribute to the Group and enhance corporate value over the long term because the vesting of stock under the portion is in principle delayed until the officer’s resignation. Because the Plan is expected to have these effects not present in the “stock options”, the Company considers the introduction of the Plan to be appropriate.

The Plan proposes to provide performance shares, etc. to Directors in addition to the maximum amount of compensation, etc. for Directors (excluding Director & Audit & Supervisory Committee Members) described in 1. above.

The number of Directors subject to the Plan at the conclusion of this General Meeting of Shareholders will be six (6), excluding two (2) External Directors, if Proposal No. 1 (“Election of Eight (8) Directors (excluding Director & Audit & Supervisory Committee Members)”) is approved in its original form.

The introduction of the Plan, including the details in 1. above, has been reviewed by the Advisory Committee Relating to Nominations and Compensation, a majority of whose members are External Directors.

The Audit & Supervisory Committee judged that the details of the Proposal, including the details in 1. above, are appropriate and there are no matters of concern.

(2) Amount of and Other Terms and Conditions of Compensation, etc. under the Plan

1) Outline of the Plan

The Plan is a performance share plan under which the Company’s shares are acquired through a trust using the amount of money to be contributed by the Company and the Company’s shares and the amount of money equivalent to the converted value of such Company’s shares (the “Company Shares, etc.”) are vested or paid (“vested, etc.”) to Directors through the trust in accordance with the share delivery regulations provided for by the Board of Directors (see 2) onward for the details).

The Plan consists of an “achievement-linked portion,” under which the Company Shares, etc. are vested, etc. three years after the beginning of each business year, and a “non-achievement-linked portion,” under which the Company Shares, etc. are vested, etc. upon the resignation of all Directors and officers of the Group in principle.

(i) Persons subject to the Plan	Directors (excluding Director& Audit & Supervisory Committee Members, External Directors and non-residents of Japan) of the Company	
(ii) Impact which the Company’s shares would have on the total number of shares issued		
Maximum amount of money to be contributed by the Company	The maximum amount is ¥730 million in three business years (as stated in 2) and 3) below)	
Maximum number of the Company Shares, etc. (including the Company’s shares subject to conversion into cash) to be vested, etc. to Directors and the acquisition method for such shares	<ul style="list-style-type: none"> ● The maximum number of the Company Shares, etc. to be vested, etc. is 423,000 shares in three business years (as stated in 4) below) ● The yearly average at 141,000 shares of the aforementioned maximum number is approximately 0.07% of the total number of shares issued of the Company (as of March 31, 2018, after deducting treasury shares) ● The Trust will acquire the Company’s shares from the Company (disposition of treasury shares) or the stock market 	
(iii) Measurement of the level of achievement of performance targets	<ul style="list-style-type: none"> ● The achievement-linked portion varies between 0% and 200% depending on the level of achievement of performance targets ● The achievement-level indicators include target figures of consolidated operating profit and profit attributable to owners of parent, etc. set under the management plan 	
(iv) Timing of vesting, etc. of Company Shares, etc.	Achievement-linked portion	Three years after the beginning of each business year
	Non-achievement-linked portion	Upon resignation of all Directors and officers of the Group in principle

2) Maximum Amount of Money to be Contributed by the Company

The Plan covers three consecutive business years (the Plan initially covers the three business years from the business year ending March 31, 2019 to the business year ending March 31, 2021 and, if the term described in 3) below is extended, the Plan will apply to each three business years thereafter; the “Covered Period”).

The Company will establish a trust whose beneficiaries are Directors satisfying beneficiary requirements (the “Trust”) by contributing trust money to the Trust as compensation for Directors of the Company up to the maximum amount of ¥730 million for the Covered Period (including the extended term as described in 3) below; the same applies hereinafter). The Trust will acquire the Company’s shares from the Company (disposition of treasury shares) or the stock market using the trust money in accordance with the directions of the Trust administrator.

3) Extension of the Covered Period

At the expiration of the Covered Period of the Trust, if it is decided that the Covered Period is to be extended, the Trust may be continued by modifying the Trust Agreement and entrusting additional money. In this case, the Covered Period and the Trust term shall be extended further for three years, and the Company will make additional contributions within the maximum amount of ¥730 million for each extended Covered Period and continue to grant points and vest, etc. the Company Shares, etc. to Directors during the extended Covered Period and the Trust term; provided, however, that in cases where such additional contributions are to be made, when there are any Company’s shares (excluding Company’s shares which are expected to be vested, etc. based on the number of points granted to Directors) and money remaining in the trust property (together with the Company’s shares remaining, the “Residual Shares, etc.”) as at the last day of the Covered Period prior to the extension, the sum of the amount of Residual Shares, etc. and additional trust money to be contributed shall be within the upper limit of ¥730 million.

In addition, if no modification of the Trust Agreement is made and no additional money is entrusted at the expiration of the Covered Period of the Trust, no points will be granted to Directors thereafter; provided, however, that if any Director who might satisfy the beneficiary requirements holds office at that time, the Trust term may be extended for up to ten years until such Director resigns from all position of Directors and officers at the Group and the vesting, etc. of the Company Shares, etc. is completed in principle.

4) Calculation Method and Maximum Number of Company Shares, etc. to be Vested, etc. to Directors

The number of Company Shares, etc. to be vested, etc. to Directors shall be determined based on the number of points granted in accordance with the formula below, converting one point to one Company’s share. If the number of Company’s shares under the Trust is increased or decreased through a stock split, allotment of shares without contribution or consolidation of shares, among others, the Company will adjust the number of Company Shares, etc. to be vested, etc. per one point and the total number of the Company’s shares, etc. to be vested, etc. based on the ratio of such increase or decrease.

Calculation formula of points

(i) Achievement-linked portion

A number of points obtained by dividing the amount of base compensation determined in advance with respect to each executive position by the share price at which the Trust acquired the Company’s shares (the “Number of PS Points”) shall be granted to Directors who hold office on the last day of each business year during the Covered Period. The number of achievement-linked points shall be calculated by multiplying the Number of PS Points granted for each business year by the achievement-linked coefficient determined based on the level of achievement of performance targets three years after the beginning of the applicable business year.

Formula of the number of achievement-linked points:

Number of PS Points × Achievement-linked coefficient*

* The achievement-linked coefficient varies between 0% and 200% depending on the level of achievement of target figures of consolidated operating profit and profit attributable to owners of parent, etc. set under the management plan.

(ii) Non-achievement-linked portion

A number of points obtained by dividing the amount of base compensation determined in advance with respect to each executive position by the share price at which the Trust acquired the Company's shares (the "Number of RS Points") shall be granted to Directors who hold office on the last day of each business year during the Covered Period on a cumulative basis (such accumulated Number of RS Points, the "Number of Non-Achievement-Linked Points").

The maximum total number of the Company Shares, etc. to be vested, etc. to Directors by the Trust is 423,000 shares in total for three business years. Such maximum number of shares has been set by reference to the past share price, etc. taking into consideration the maximum amount of money in 2) above.

5) Timing and Method of Vesting, etc. of Company Shares, etc. to Directors

(i) Achievement-linked portion

The timing at which Company Shares, etc. pertaining to the achievement-linked portion are vested, etc. will be three years after the beginning of each business year during the Covered Period. Directors who meet the prescribed requirements for beneficiaries shall receive the Company's shares corresponding to 50% of the number of achievement-linked points (the number of shares less than a share unit will be rounded down), and receive money equivalent to the Company's shares corresponding to the number of remaining achievement-linked points that are converted into cash under the Trust.

(ii) Non-achievement-linked portion

The timing at which Company Shares, etc. pertaining to the non-achievement-linked portion are vested, etc. will be after the resignation from all position of Directors and officers at the Group in principle. Directors who meet the prescribed requirements for beneficiaries shall receive Company's shares corresponding to 50% of the Number of Non-Achievement-Linked Points granted by the time of resignation (the number of shares less than a share unit will be rounded down), and receive money equivalent to Company's shares corresponding to the remaining Number of Non-Achievement-Linked Points that are converted into cash under the Trust.

6) Voting Rights Related to the Company's Shares under the Trust

Voting rights related to the Company's shares under the Trust shall not be exercised during the Trust term to ensure the neutrality of the Company management.

7) Treatment of Dividends of Surplus of the Company's Shares under the Trust

The dividends of surplus pertaining to the Company's shares under the Trust shall be received by the Trust and applied to the trust fees and trust expenses. Any money remaining at the time the Trust finally terminates after application to the trust fees and trust expenses shall be contributed to organizations that are irrelevant to the Group or Directors, etc. of the Group in principle.

8) Treatment of the Company's Residual Shares under the Trust

If the Trust is terminated upon expiration of the Trust term and there are residual shares incurred due to failure to achieve performance targets or any other cause, the Trust will, as a measure to return profits to shareholders, transfer such residual shares to the Company for no consideration and the Company will cancel such shares by a resolution of the Board of Directors.

9) Other Details of the Plan

Other details of the Plan will be determined by the Board of Directors each time the Trust is established, the Trust Agreement is modified, and additional money is contributed to the Trust. Therefore, the Company asks the shareholders to permit the Board of Directors to decide such details at its sole discretion.

Reference:

In addition to the provision of performance shares, etc. to Directors of the Company, the approval of which is requested in the Proposal, the Company also intends to provide performance shares, etc. to all or part of the Directors and Executive Officers (excluding External Directors and non-residents of Japan) of the Company's key subsidiaries including Nomura Real Estate Development Co., Ltd. and Nomura Real Estate Asset Management Co., Ltd. by using a trust. For all recipients entitled to the performance shares, etc., the maximum amount of money to be contributed to the trust for each Covered Period (three business years) shall be ¥3,836 million and the maximum number of Company Shares, etc. to be vested, etc. for each Covered Period (three business years) shall be 2,216,400 shares (the yearly average of 738,800 shares is approximately 0.39% of the total number of shares issued of the Company as of March 31, 2018 (after deducting treasury shares)).

Business Report

(From April 1, 2017 to March 31, 2018)

1. Current status of the Group

(1) Status of operations for the fiscal year under review

1) Progress and results of business

We are pleased to announce a summary of operating results of our 14th term (April 1, 2017 to March 31, 2018).

During the fiscal year under review, the Japanese economy recovered gradually overall with moderate increases in consumer spending backed by improvements in the employment and personal income environments, and with corporate activities including increased capital investment amid strong corporate earnings and improved business sentiment. In regard to the economic outlook, the gradual recovery is expected to continue supported by firm economies in Japan and abroad and improvements in the employment and personal income environments, although it is necessary to pay careful attention to uncertainty in overseas economies and trends in financial and capital markets.

In the real estate industry, the housing sales market saw sales prices continue to increase primarily in the Tokyo metropolitan area while supply volume reached a low level due to intensified competition for the purchase of land, and there was a strengthened trend of polarization characterized by a gap in contract rates due to the convenience of certain regions and properties. In the office market, the business environment is strong primarily due to vacancy rates remaining at a low level, particularly in the Tokyo metropolitan area, supported by solid demand for offices accompanying corporate business expansion, and the rent level continuing to rise gradually. In the real estate investment market, although the fund procurement environment is favorable backed by low interest rates and persistently high real estate prices, the competition for property acquisition continues to be intensified due to strong demand for property acquisition among investors.

In this business environment, the Nomura Real Estate Group (the “Group”) posted the following consolidated performance for the fiscal year under review: Operating revenue of ¥623,762 million, which represents an increase of 9.5% year on year; operating profit of ¥76,660 million, a decrease of 0.8%; ordinary profit of ¥68,033 million, a decrease of 1.3%; and profit attributable to owners of parent of ¥46,029 million, a decrease of 2.1%.

[Residential Development Unit]

Operating revenue in the Residential Development Unit totaled ¥358,745 million, which represents an increase of 8.8% year on year, and operating profit totaled ¥24,516 million, a decrease of 11.8% year on year, resulting in an increase in operating revenue and a decrease in operating profit compared with the previous fiscal year.

This was mainly due to a decrease in gross margin ratio, while the number of housing unit sales in the housing sales business increased. In regards to housing sales, 5,865 units were recorded as sales (an increase of 298 units year on year), including PROUD CITY Musashino-Mitaka (Musashino-shi, Tokyo), PROUD TOWER Nagoya Sakae (Naka-ku, Nagoya-shi, Aichi) for condominiums, and PROUD SEASON Kunitachi-Shikinomachi (Kokubunji-shi, Tokyo) for detached houses.

As of the end of the fiscal year under review, the number of completed housing inventories totaled 458 units (a decrease of 196 units compared with the end of the previous fiscal year) and the number of contracted but not recorded housing units totaled 2,831 units (an increase of 52 units compared with the end of the previous fiscal year).

In the overseas business, the Company has also continued to actively engage in the development business overseas. This includes a new entry into the housing sales business in Thailand following on from China, Vietnam and the Philippines.

[Leasing Unit]

Operating revenue in the Leasing Unit totaled ¥134,941 million, which represents an increase of 17.3% year on year, and operating profit totaled ¥35,232 million, an increase of 8.2%, resulting in increases in both revenue and operating profit compared with the previous fiscal year.

This was mainly due to an increase in leasing revenue from newly-built properties such as Yokohama Nomura Building (Nishi-ku, Yokohama-shi, Kanagawa) in the Leasing Business, as well as an increase in revenues from the sales in profitable properties and land for business. The vacancy rate as of the end of the fiscal year under review has remained at a low level of 0.7% (a decrease of 0.1 percentage points compared with the end of the previous fiscal year). In addition, we established Nomura Real Estate Hotels Co., Ltd. in October 2017 and launched a new hotel brand “NOHGA HOTEL,” for which the Group will provide product development and services. NOHGA HOTEL UENO (Taito-ku, Tokyo), the first hotel, is scheduled to open in the fall of 2018.

Construction of facilities including the PMO Shibuya office building (Shibuya-ku, Tokyo), the GEMS Ebisu retail facility (Shibuya-ku, Tokyo), and the Landport Takatsuki logistics facility (Takatsuki-shi, Osaka) has been completed.

[Investment Management Unit]

Operating revenue in the Investment Management Unit totaled ¥9,378 million, which represents a decrease of 2.9% year on year, and operating profit totaled ¥5,911 million, a decrease of 1.7%, resulting in decreases in both revenue and operating profit compared with the previous fiscal year.

This was mainly due to the repercussion from the disappearance in asset acquisition fees recorded in the previous fiscal year associated with the merger between Nomura Real Estate Master Fund, Inc. and TOP REIT, Inc.

Assets under management have steadily expanded and totaled ¥1,285,903 million (an increase of ¥25,838 million compared with the end of the previous fiscal year) as of the end of the fiscal year under review.

In addition, the Company conducted replacement of assets between Nomura Real Estate Development Co., Ltd. and Nomura Real Estate Master Fund, Inc., representing 10 properties and a transaction value of ¥48,010 million, in accordance with the Basic Agreement on the Leasing Value Chain concluded in May 2015.

[Property Brokerage & CRE Unit]

Operating revenue in the Property Brokerage & CRE* Unit totaled ¥35,703 million, which represents an increase of 2.5% year on year, operating profit totaled ¥8,452 million, a decrease of 7.4%, resulting in an increase in operating revenue and a decrease in operating profit compared with the previous fiscal year.

This was mainly due to an increase in expenses for new branches while the number of transactions and total transaction value in property brokerage increased.

In the retail business, we opened the following new branch stores: Omiya Center (Omiya-ku, Saitama-shi, Saitama) and Tachikawa Center (Tachikawa-shi, Tokyo) in April 2017 and Hatanodai Center (Shinagawa-ku, Tokyo), Komagome Center (Toshima-ku, Tokyo), and Abeno Center (Abeno-ku, Osaka-shi, Osaka) in October 2017, and the total number of branch stores is 78. We are also actively rolling out new services that utilize ICT, such as website content “VR Home Staging” and “Condominium Data Plus.”

In the wholesale business, we are steadily increasing transaction value by offering proposals for effective real estate utilization to Japanese companies, and meeting inbound investment needs, particularly of investors from Asia.

* CRE: Corporate Real Estate

[Property & Facility Management Unit]

Operating revenue in the Property & Facility Management Unit totaled ¥101,087 million, which represents an increase of 5.6% year on year, and operating profit totaled ¥7,076 million, an increase of 2.0%, resulting in increases in both revenue and operating profit compared with the previous fiscal year.

This was mainly due to an increase in revenue of property and facility management with the increase in the number of properties under management, as well as an increase in revenue from construction orders for various reasons, including providing the large-scale repair work service “re:Premium,” which supplies long-term guarantees for “PROUD,” Nomura Real Estate Development Co., Ltd.’s condominium brand.

In the fitness club business, we opened fitness clubs appropriate for the local community and target markets, such as a MEGALOS_Shirokanedai (Minato-ku, Tokyo), a city-center type club located in a prime location and providing stylish atmosphere, and MEGALOS_Refllet Kawaramachi Sanjo 24 (Nakagyo-ku, Kyoto-shi, Kyoto), the first women-only around-the-clock fitness club in the Kansai area. In the senior business, we also opened OUKAS Funabashi (Funabashi-shi, Chiba) in October 2017.

In addition, as of the end of the fiscal year under review, the number of buildings under management was 723 buildings (up 21 from the end of the previous fiscal year), and the number of condominiums under management was 173,705 units (up 4,706).

[Other Unit]

Operating revenue in the Other Unit totaled ¥107 million, which represents an increase of 1.3% year on year, and operating loss totaled ¥10 million (the previous fiscal year was operating loss of ¥30 million).

(4) Issues to address

Looking at the social and economic environments surrounding the Group, diverse changes have continued including the progress of urban renaissance in metropolitan areas, movements for regional revitalization, and the increase and/or obsolescence of the stock of existing properties, in addition to the aging population and declining birthrate, as well as the progress of women's advances in society. Furthermore, such phenomena as the expansion of the real estate investment market, the economic growth of the Asian zone and accelerated globalization are expected to have significant effects on the business environment of the Group in the future.

Given the aforementioned background, we formulated the Mid- to Long-Term Business Plan—*Creating Value through Change*— (from April 2016 to March 2025) in November 2015 to realize our growth model that emphasizes “Continuous expansion of revenue with ensured high asset efficiency” based on the streamlined financial foundation.

In light of the characteristics of real estate business that operates on a medium- to long-term basis, we have set financial goals for the period up to and including the fiscal year ending March 31, 2025, deployed growth strategies for their achievement, and divided the target period into three phases. Based on the key strategies of “Expand business volume and business domains in the Development Sector,” “Demonstrate differentiation and a competitive edge in the Service & Management Sector,” and “Increase and reinforce the customer base via Group-wide collaboration,” our quantitative goals by the fiscal year ending March 31, 2025 are to achieve the ¥150.0 billion level for operating profit and above ¥1 trillion for operating revenue.

During the fiscal year under review, in the Development Sector, the recovery of business speed in the housing sales business was accelerated, and we expanded both the leasing business and property development business. For the Service & Management Sector, we steadily generated business growth in business fields and environments different than those of other sectors and contributed to the Group's growth.

As we head into the final business year of Phase 1 of the Mid- to Long-term Business Plan, we will improve the profitability of the housing sales business, increase rental revenue through various efforts including strengthening the relationship with tenants in the leasing business, and expand the share of business in the Service & Management Sector. In the field of new businesses, we will promote growth in the senior and hotel businesses and aggressively expand overseas business.

In addition to the above, we will continue aiming to build a portfolio that balances the Residential Development Unit, Leasing Unit and Service & Management Sector, and, while maintaining a stable financial foundation and high asset efficiency, will pursue the achievement of sustainable revenue growth and the further improvement of our corporate value.

On December 25, 2017, a Group company Nomura Real Estate Development Co., Ltd. received a recommendation for corrective action and direction in respect to the discretionary working system for management-related work applied to certain employees from the Labor Standard Inspection Office in charge of the headquarters and four local offices (Kansai Regional Office, Nagoya Branch, Sendai Branch and Fukuoka Branch). Based on the corrective action and direction, Nomura Real Estate Development Co., Ltd. abandoned its discretionary working system effective March 31, 2018 and has already completed adjustments regarding unpaid salary following scrutiny of the working hours of the affected employees. The payment will have a minor impact on earnings for the fiscal year under review.

Moreover, the Group as a whole is treating the fact that the death of a Nomura Real Estate Development Co., Ltd. employee was certified as an industrial accident very seriously. The entire Group is committed ensuring labor management and improving the workplace environment to enable employees to work in a positive manner with peace of mind with the aim of restoring the trust of shareholders and society and the confidence of employees in the company and its management. From the perspective of Group management, we will also work as a corporate group overall to ensure that similar circumstances do not arise by participating appropriately in the process of the formulation of measures to prevent recurrence in addition to monitoring whether the measures to prevent recurrence have been properly implemented. Additionally, we will strive to implement “wellness management,” which links all officers and employees being physically and psychologically healthy and energetically undertaking their work to sustained

corporate growth, and senior management will continually disseminate and strive for the spread of understanding and steady implementation of this management style.

We appreciate the continued support and encouragement of our shareholders.
