CSR

Special Feature: Nomura Real Estate Group's Contribution to SDGs

Approach to the SDGs

"Transforming our world: The 2030 Agenda for Sustainable Development" was adopted at the United Nations Sustainable Development Summit held in September 2015. The globally shared targets set by this agenda are the Sustainable Development Goals (SDGs).

The Group, which established Our Group Vision in the form of the Group's Corporate Philosophy and CSR Vision, is cognizant that achieving the SDGs is a crucial issue. We are contributing to the realization of the SDGs through measures addressing our four key themes: Safety/Security, the Environment, Community, and Health and Well-being.

Four Key Themes	Related SDGs		
Safety/Security	9 INDUSTRY, INNOVATION AND INFRASTRUCTURE 11 SUSTAINABLE CITIES AND COMMUNITIES 13 CLIMATE ACTION 15 CLIMATE ACTION		
Environment	7 AFFORDABLE AND CLEAN ENERGY 11 SUSTAINABLE CITIES AND COMMUNITIES 12 RESPONSIBLE CONSUMPTION AND PRODUCTION CO 15 LIFE ON LAND 16 CLEAN WATER AND CLIMATE CONSUMPTION AND PRODUCTION CO 17 AFFORDABLE AND CLEAN ENERGY 18 ACTION CO 19 AFFORDABLE AND CLEAN ENERGY 10 AFFORDABLE AND CLEAN ENERGY 11 SUSTAINABLE CITIES CONSUMPTION AND PRODUCTION CO 15 ON LAND 16 AND SANITATION 17 AFFORDABLE AND CLEAN ENERGY 18 ACTION CO 19 AFFORDABLE AND CLEAN ENERGY 19 AFFORDABLE AND CLEAN ENERGY 10 AFFORDABLE AND CLEAN ENERGY 11 SUSTAINABLE CITIES CONSUMPTION AND PRODUCTION CO 15 ON LAND 16 AND SANITATION 17 AFFORDABLE AND CLEAN ENERGY 18 AND CONSUMPTION AND PRODUCTION CO 18 AND CONSUMPTION AND PRODUCTION CO 18 AND CONSUMPTION CO 18 AND CONSUMPTION AND CONSUMPTIO		
Community	8 DECENT WORK AND ECONOMIC GROWTH 11 SUSTAINABLE CITIES FOR THE GOALS FOR THE GOALS		

Four Key Themes	Related SDGs	
Health and Well-being	3 GOOD HEALTH AND WELL-BEING 10 REDUCED INEQUALITIES 11 SUSTAINABLE CITIES AND COMMUNITIES 12 SUSTAINABLE CITIES	

Contribution to the SDGs

The Group is contributing to the SDGs through the following activities, which are our measures to address the four key themes.

SDGs	Activities of the Nomura Real Estate Group	Main Contribution Results (FY 2017)
3 GOOD HEALTH AND WELL-BEING	Support health and promote increases in healthy lifespan	Development of properties with services designed for seniors (cumulative): 125 units
6 CLEAN WATER AND SANITATION	Reduce water consumption	Water consumption (intensity): 1.127 m³/m²-year
7 AFFORDABLE AND CLEAN ENERGY	Installation of solar power generating facilities	Solar power generating facility installation rate at Landport logistics facilities: 100% Annual solar power output: 11.55 million kWh
	Reduce energy consumption	Energy consumption (intensity): 0.049 kl/m² per year
10 REDUCED INEQUALITIES	Promote universal designs	Barrier-free and universal design adoption rate in condominiums: 100%

SDGs	Activities of the Nomura Real Estate Group	Main Contribution Results (FY 2017)
11 SUSTAINABLE CITIES AND COMMUNITIES	Expand and improve designs that support revitalization of communities	New residential properties with community contribution facilities: 4 properties
	Improvement of disaster preparedness and security countermeasures	Managed properties where disaster preparedness training is conducted: 85% Properties registered to take in persons who are unable to return home during an emergency: 3 properties
12 RESPONSIBLE CONSUMPTION AND PRODUCTION	Reduce waste volumes	Waste discharge volume (intensity) 4.343 kg/m² per year
13 CLIMATE ACTION	Responses to climate change	CO ₂ emissions (intensity): 0.088 t CO ₂ /m ² per year
15 LIFE ON LAND	Care for biodiversity	Properties that acquired biodiversity certification (ABINC/JHEP/SEGES): 4 properties
17 PARTNERSHIPS FOR THE GOALS	Community revitalization support	Number of meetings held with condominium residents: 40 Number of meetings held with corporate tenants in office buildings, etc.: 100 Number of community dialogue events held: 29

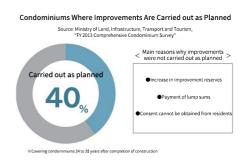

Case Study: Contributing to the SDGs through longer building lifespans and improved durability

Stagnation of Condominium Improvement Plans Becoming an Increasingly Severe Social Issue

Even when a long-term improvement plan is established at the time of construction, due to the aging of society and the increase in vacant units in recent years as well as rising construction costs and other factors, the collection of improvement expenses is often delayed. Consequently, only less than half of condominiums are able to carry out the second large-scale improvements as planned (according to Ministry of Land, Infrastructure, Transport and Tourism investigations).

If building lifespans are reduced as a result, large volumes of waste will be generated.

The SDGs call for the development of sustainable cities and drastic reductions in waste, and these are important issues to be addressed by the Group.

Increasing Building Lifespans and Durability throughout Their Life Cycles

In response to these social issues, the Group is working to increase building lifespans and durability throughout their life cycles.

Starting in fiscal 2017, we reviewed the improvement plans for completed PROUD condominiums and launched the re: Premium long-cycle, large-scale repair service.

Under this program, the cycle for large-scale repairs, which is normally planned for every 12 years, is extended to 16 to 18 years and ultra-long-term improvement plans extending up to 60 years after the completion of construction can be formulated.

In addition, we created the Attractive 30 service for newly-constructed condominiums in fiscal 2018. This service employs high-durability materials and construction techniques and introduces re: Premium to lengthen the cycle of large-scale repairs.

By offering the re:Premium and Attractive 30 services, the Group is reducing the psychological and economic burdens on customers, increasing the durability and extending the lifespans of buildings, and reducing waste.

Providing New Value to Society, the Environment, and Customers

These efforts to extend building lifespans and lengthen large-scale repair cycles contribute to the development of sustainable cities and reduction of waste and provide new value to customers. By substantially cutting lifecycle costs, the psychological and economic burdens on customers are reduced and future options are expanded regarding refurbishment of common areas and renovation of exclusive areas.

Going forward, the Group will continue contributing to the realization of a sustainable society by responding to social and environmental issues and providing products and services that are valuable to customers.
