#### Sustainability Disclosure Topics& Accounting Metrics

ACCOUNTING METRIC	CODE	REFERENCE
Topic: Energy Management		
Energy consumption data coverage as a percentage of total floor area, by property subsector	IF-RE-130a.1	Environment > Decarbonization >     Targets and Results > Energy     Consumption Performance (Nomura Real     Estate Group)
(1) Total energy consumed by portfolio area with data coverage, (2) percentage grid electricity, and (3) percentage renewable, by property subsector	IF-RE-130a.2	<ul> <li>□ (1) (2) (3) Environment &gt;</li> <li>Decarbonization &gt; Targets and Results &gt;</li> <li>Energy Consumption Performance</li> <li>(Nomura Real Estate Group)</li> </ul>
Like-for-like percentage change in energy consumption for the portfolio area with data coverage, by property subsector	IF-RE-130a.3	<ul> <li>Environment &gt; Decarbonization &gt;</li> <li>Targets and Results &gt; Energy</li> <li>Consumption Performance (Nomura Real</li> <li>Estate Group)</li> </ul>
Percentage of eligible portfolio that (1) has an energy rating and (2) is certified to ENERGY STAR, by property subsector	IF-RE-130a.4	<ul> <li>□ (1) Environment &gt; Environmental</li> <li>Management &gt; Targets and Results &gt; List</li> <li>of Environmental Certifications Acquired</li> <li>(FY2021)</li> <li>□ (1) Environment &gt; Environmental</li> <li>Management &gt; Targets and Results &gt;</li> <li>Acquisition of Energy Rating</li> </ul>
Description of how building energy management considerations are integrated into property investment analysis and operational strategy	IF-RE-130a.5	Environment > Environmental     Management > Targets
Topic: Water Management		
Water withdrawal data coverage as a percentage of (1) total floor area and (2) floor area in regions with High or Extremely High Baseline Water Stress, by property subsector	IF-RE-140a.1	<ul> <li>(1) Environment &gt; Circular Design &gt; Targets and Results &gt; Result 2. Volume of Water Intake, Discharge and Use</li> <li>(2) Environment &gt; Circular Design &gt; Initiatives &gt; Water Risk Assessment</li> </ul>
(1) Total water withdrawn by portfolio area with data coverage and (2) percentage in regions with High or Extremely High Baseline Water Stress, by property subsector	IF-RE-140a.2	<ul> <li>(1) Environment &gt; Circular Design &gt; Targets and Results &gt; Result 2. Volume of Water Intake, Discharge and Use</li> <li>(2) Environment &gt; Circular Design &gt; Initiatives &gt; Water Risk Assessment</li> </ul>

Like-for-like percentage change in water withdrawn for portfolio area with data coverage, by property subsector	IF-RE-140a.3	<ul> <li>ロ (2) Environment &gt; Circular Design &gt;</li> <li>Initiatives &gt; Water Risk Assessment</li> </ul>
Description of water management risks and discussion of strategies and practices to mitigate those risks	IF-RE-140a.4	<b>ロ</b> Environment > Top Page > Management
Topic: Management of Tenant Sustainabi	lity Impacts	
(1) Percentage of new leases that contain a cost recovery clause for resource efficiency related capital improvements and (2) associated leased floor area, by property subsector	IF-RE-410a.1	_
Percentage of tenants that are separately metered or submetered for (1) grid electricity consumption and (2) water withdrawals, by property subsector	IF-RE-410a.2	_
Discussion of approach to measuring, incentivizing, and improving sustainability impacts of tenants	IF-RE-410a.3	Environment > Decarbonization >     Initiatives > Helping Customers to Save     Energy
Topic: Climate Change Adaptation		
Area of properties located in 100-year flood zones, by property subsector	IF-RE-450a.1	_
Description of climate change risk exposure analysis, degree of systematic portfolio exposure, and strategies for mitigating risks	IF-RE-450a.2	Responding to the Task Force on     Climate-related Financial Disclosures     (TCFD)

#### **Activity Metrics**

Number of assets, by property subsector	IF-RE-000.A	Environment > Decarbonization >     Targets and Results > Energy     Consumption Performance (Nomura Real     Estate Group)
Leasable floor area, by property subsector	IF-RE-000.B	<ul> <li>Environment &gt; Decarbonization &gt;</li> <li>Targets and Results &gt; Energy</li> <li>Consumption Performance (Nomura Real</li> <li>Estate Group)</li> </ul>
Percentage of indirectly managed assets, by property subsector	IF-RE-000.C	_
Average occupancy rate, by property subsector	IF-RE-000.D	_

# **GRI Standards**

This Sustainability site was prepared by making reference to the GRI standards (2016).

% Refer to the GRI standards 2018 for 303: Water and Effluents and 403: Occupational Health and Safety; refer to the stadard 2019 for 207:Tax; refer to the stadard 2020 for 306: Waste.

### Sustainable Finance

Due to its involvement in real estate development and services, the Group bears a social responsibility to build communities that connect today with tomorrow's possibilities by pursuing its vision of "New Value, Real Value." With the goal of contributing to the sustainable development of society, we are advancing a variety of efforts, including the issuance of sustainability-linked loans and sustainability bonds.

### Sustainability Linked Loans

#### Overview

Sustainability-linked loans are designed to enhance the sustainability performance of borrowers and encourage sustainable economic activities and growth. Borrower performance is measured through sustainability performance targets (SPTs), which are set in alignment with the interest rate and other loan terms with the borrowers and also with their ESG strategy. Borrowers are either incentivized or disincentivized depending on performance against SPTs.

With support from the Chiba Bank as the sustainability coordinator, the Nomura Real Estate Group established an SLL Framework<sup>\*1</sup>, the first of its kind in Japan, raising a fund of 11 billion yen for financing and refinancing purposes from nine of the TSUBASA Alliance<sup>\*2</sup> member banks, including the Chiba Bank, on July 30, 2021.

We intend to increase our transactions with ESG-oriented financial institutions via the SLL Framework and thereby stabilize our procurement of sustainability funds. Meanwhile, we are strengthening our ESG initiatives to better respond to global warming, human rights and labor issues and further reinforce our governance systems.

- \*\*1 A framework designed to facilitate SLL operations for both the borrower (e.g., the Nomura Real Estate Group) and the lenders (e.g., banks such as the Chiba Bank) by comprehensively defining all SLL terms that need to be specified for each contract, such as SPTs, incentives and reporting requirements.
- %2 A wide ranging alliance with the participation of the following ten regional banks: Chiba Bank, Daishi Hokuetsu Bank, Chugoku Bank, Iyo Bank, Toho Bank, North Pacific Bank, Musashino Bank, Shiga Bank, Bank of the Ryukyus, and Gunma Bank.

#### **SLL Framework Overview**

Date of establishment	July 28, 2021
Sustainability coordinator	Chiba Bank
SPTs	SBT-approved target reduction rate for total greenhouse gas emissions <sup>*3</sup>
Incentive	Preferential interest rate spread according to the achievement of SPTs

 $\%3\,$  A total GHG emission reduction of 35% by 2030 from the FY2019 level

### Sustainability Bond

#### Overview

Nomura Real Estate Holdings issued a sustainability bond (corporate bond) to raise funds for projects that will contribute to the resolution of environmental and social issues. The Company also formulated the Nomura Real Estate Group Sustainability Bond Framework (See Reference 1) when it issued the bond.

Name	Nomura Real Estate Holdings, Inc. 15th Unsecured Bonds (Sustainability Bond)
Total amount of the bond issue	10 billion yen
Interest rate	0.390% on an annual basis
Bond payment date	February 26, 2021
Redemption date (duration of bond)	February 26, 2031 (10 years)
Coupon payment date	February 26 and August 26 every year
Bond ratings	A (Japan Credit Rating Agency, Ltd.) A- (A minus) (Rating and Investment Information, Inc.)
Third-party (external) evaluation	The evaluation reports (see Reference 2) on the Nomura Real Estate Group Sustainability Bond Framework's conformity with the Sustainability Bond Guidelines and other relevant principles were received from third-party evaluation agencies Vigeo Eiris (V.E), Japan Credit Rating Agency (JCR), and Rating and Investment Information (R&I).
Underwriters	Nomura Securities Co., Ltd. (Lead Managing Underwriter), Mitsubishi UFJ Morgan Stanley Securities Co., Ltd. (Independent Lead Manager), SMBC Nikko Securities Inc. (Syndicate Underwriter), and Mizuho Securities Co., Ltd. (Syndicate Underwriter)
Structuring agent <sup>*1</sup>	Nomura Securities Co., Ltd.

(Scheduled) Use of proceeds

The bond proceeds are to be used as investments and loans for refinancing the costs of the PMO, H<sup>1</sup>T and OUKAS businesses to Nomura Real Estate Holding's subsidiaries.

%1 A structuring agent supports the issuance of a sustainability bond by providing the issuer with advice on the formulation of the sustainability bond framework and the acquisition of the second opinion and third-party reviews.

# LRAQ Independent Assurance Statement Relating to Nomura Real Estate Holdings, Inc.'s GHG Emissions and Energy Consumption for the fiscal year 2021

This Assurance Statement has been prepared for Nomura Real Estate Holdings, Inc. in accordance with our contract.

#### **Terms of Engagement**

LRQA Limited ("LRQA") was commissioned by Nomura Real Estate Holdings, Inc. ("the Company") to provide independent assurance on its greenhouse gas ("GHG") emissions and energy consumption of the fiscal year 2021 (from 1 April 2021 to 31 March 2022), against the assurance criteria below to a limited level of assurance and the materiality of the professional judgement of the verifier using ISO 14064-3:2019 and the Company's methodologies for GHG emissions, and ISAE 3000(Revised) for energy consumption.

Our assurance engagement covered the Company's operations and activities in Japan and overseas and specifically the following requirements:

- Verifying conformance with the Company's reporting methodologies
- Evaluating the accuracy and reliability of data for the selected indicators listed below:
  - GHG emissions:<sup>1 2 3</sup>
    - Scope 1 GHG emissions (tonnes CO<sub>2</sub>)
    - Scope 2 GHG emissions (Market-based) (tonnes CO<sub>2</sub>)
    - Scope 3 GHG emissions (Category 1 and 11) (tonnes CO<sub>2</sub>e)
  - Energy consumption (MWh)

Our assurance engagement excluded the data and information of the Company's suppliers, contractors and any third-parties mentioned in the report.

LRQA's responsibility is only to the Company. LRQA disclaims any liability or responsibility to others as explained in the end footnote. The Company's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of the Company.

#### **LRQA's Opinion**

Based on LRQA's approach nothing has come to our attention that would cause us to believe that the *Company has* not, in all material respects:

- Met the requirements of the criteria listed above; and
- Disclosed accurate and reliable performance data and information as summarized in Table 1 below.

<sup>&</sup>lt;sup>1</sup> Excluding sites that have small GHG emissions. (Less than 0.05% of total GHG emissions)

<sup>&</sup>lt;sup>2</sup> GHGs other than energy-oriented CO<sub>2</sub> are not included in the calculation if each GHG emissions are less than 3,000 tCO<sub>2</sub>e, based on Act on Promotion of Global Warming Countermeasures.

<sup>&</sup>lt;sup>3</sup> GHG quantification is subject to inherent uncertainty.

The opinion expressed is formed on the basis of a limited level of assurance<sup>4</sup> and at the materiality of the professional judgement of the verifier.

Scope	2		
Scope 1 GHG emissions		21,542	Tonnes CO <sub>2</sub>
Scope 2 GHG emissions (Market-based)		107,514	Tonnes CO <sub>2</sub>
Scope 3 GHG emissions	Category 1	702,271	Tonnes CO <sub>2</sub> e
	Category 11	1,214,723	Tonnes CO <sub>2</sub> e
Energy Consumption (Scope 1 and Scope 2)		379,428	MWh

#### Table 1. Summary of the Company's Key Data for the fiscal year 2021:

#### LRQA's Approach

LRQA's assurance engagements are carried out in accordance with ISO 14064-3:2019 for GHG emissions, and ISAE 3000 (Revised) for energy consumption. The following tasks were undertaken as part of the evidence gathering process for this assurance engagement:

- Auditing the Company's data management systems to confirm that there were no significant errors, omissions or misstatements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification.
- Interviewing with those key people responsible for compiling the data and drafting the report.
- Sampling datasets and traced activity data back to aggregated levels;
- Verifying the historical data and records for the fiscal year 2021; and

Visiting LAZONA Kawasaki TOSHIBA building and SOCOLA MINAMI-GYOTOKU to confirm the data collection processes, record management practices, and to physically check the sites.

#### Where GHG deductions are included within the Report insert the following:

The Report includes a deduction from *Company's* emissions of 470 tonnes  $CO_2$  relating to offsets. We have verified that these offsets were acquired and that their inclusion in the Report is reasonable. We have not performed any procedures regarding the providers of these offsets and express no opinion on whether they have, or will, result in a reduction of  $CO_2e$ .

#### Observations

Further observations and findings, made during the assurance engagement, are:

• LRQA expects that the Company will contrive quantitative descriptions of boundary of data collection in its data management manual to make the boundary clearer.

#### LRQA's Standards, Competence and Independence

LRQA implements and maintains a comprehensive management system that meets accreditation requirements for ISO 14065 Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition and ISO/IEC 17021-1 Conformity assessment – Requirements for bodies

<sup>&</sup>lt;sup>4</sup> The extent of evidence-gathering for a limited assurance engagement is less than for a reasonable assurance engagement. Limited assurance engagements focus on aggregated data rather than physically checking source data at sites. Consequently, the level of assurance obtained in a limited assurance engagement is lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

providing audit and certification of management systems – Part1: Requirements that are at least as demanding as the requirements of the International Standard on Quality Control 1 and comply with the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants.

LRQA ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

This is the only work undertaken by LRQA for the Company and as such does not compromise our independence or impartiality.

Signed

Dated: 5 September 2022

Yoshinori Shibata LRQA Lead Verifier On behalf of LRQA Limited 10th Floor, Queen's Tower A, 2-3-1 Minatomirai, Nishi-ku, Yokohama, JAPAN

#### LRQA reference: YKA00000926

LRQA, its affiliates and subsidiaries, and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'LRQA'. LRQA assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant LRQA entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

The English version of this Assurance Statement is the only valid version. LRQA assumes no responsibility for versions translated into other languages.

This Assurance Statement is only valid when published with the Report to which it refers. It may only be reproduced in its entirety.

#### Participant of the Japan Climate Initiative

Nomura Real Estate Asset Management has joined in the Climate Change Initiative, a network for the cross-sectoral dissemination of information and exchange of views among companies, local governments, NGOs, and other organizations engaged in climate change measures.

JAPAN CLIMATE INITIATIVE

# Signing the Financial Action Principles for the Formation of a sustainable Society (The 21st Century Principles of Financial Action)

Nomura Real Estate Asset Management endorses the concept and has signed the Financial Action Principles for the Formation of a Sustainable Society (The 21st Century Principles of Financial Action), a collection of action guidelines for financial institutions wanting to fulfill their responsibilities and roles necessary for creating a sustainable society.

#### Member of the UK Green Building Council (GBC)

Lothbury Investment Management is affiliated with and endorses the UK Green Building Council (GBC), an organization that certifies buildings with high environmental performance in terms of energy, water, air-conditioning, and so on.

#### Participation in the Taskforce on Nature-related Financial Disclosures (TNFD) Forum

In July 2022, Nomura Real Estate Holdings began participating in the TNFD Forum, which was established to support the development of a framework for TNFD, an international initiative to create a framework for appropriately assessing and disclosing the risks and opportunities associated with natural capital and biodiversity.

#### Participation in the 30by30 Alliance for Biodiversity

In July 2022, Nomura Real Estate Holdings began participating in the 30by30 Alliance for Biodiversity, led by Japan's Ministry of the Environment, which serves as the secretariat. The purpose of the alliance is to achieve the target of effectively conserving or protecting 30% of land and sea areas by 2030.

)pd3C

N Forum D Member

In fiscal 2019, Nomura Real Estate Holdings announced its endorsement of Keidanren's Declaration of Biodiversity. Regarding initiatives for biodiversity as an important management issue for the Group, which is involved in real estate development and urban development, the company will continue to promote initiatives that are considerate of the natural environment and ecosystems.

# Supporter of the "Voluntary Action Plan on the Environment for the Real Estate Industry" of the Real Estate Companies Association of Japan

Nomura Real Estate Development supports the environmental goals of the real estate industry in accordance with the Voluntary Action Plan on the Environment, established by the Real Estate Companies Association of Japan, to which the Company belongs, and promotes measures against climate change by working to reduce CO<sub>2</sub> emissions beyond the statutory standards.
